# MCRA

Modern Consortium for Refueling Aircraft  
شركة التحالف الحديث لتمويل الطائرات بالوقود المحدودة

- The Modern Consortium for Refuelling Aircraft Co. Ltd. (MCRA) established upon a Joint Venture of Arabian Petroleum Supply Company (APSCO) and Al-Shams National Global Energy Company (formerly Al-Bakri International Energy Company Limited (BIECO)). MCRA is the first private company in Saudi Arabia managing fuel farm with storage capacity 36 million litres, hydrant operation and delivering quality into-plane services of Jet A-1 at King Fahd International Airport Dammam in line with Joint Inspection Group (JIG) standards, the recognised global organisation in the field.
- The company also works in cooperation with Kuwait International Aviation Company Limited (Q8 Aviation), which is a JIG guarantor member in order to obtain technical support services for its entire operation. Those international experts are visiting MCRA on a regular basis to inspect and verify operations periodically and repeatedly each year to ensure maintaining the highest international standards. Q8 currently manages and operates several fuel farm and into plane fuel facilities at major airports in Europe, Asia, Australia and Africa.
- MCRA depends on highly qualified engineering, technical and administrative Saudi and expat staff having excellent international expertise in the field. It also relies on its partners in continuous inspection program to monitor the safety, maintenance and operation procedures and their conformity with international requirements.

## Vision, Mission and Objectives

### Vision

To be recognized as one of the best fuel supplier in the region.

### Mission

To provide consistent, safe, reliable and quality services to our customers and business partners through our highly skilled professional employees by incorporating latest industry developments and innovative solutions.

### Objectives

- Ensure that the Quality Objectives are achieved.
- Supplying Quality aviation fuel and services, which meet and exceed our customer's requirements, expectations and satisfaction.
- Deliver services safely and timely.

# Safety

Safety is the foremost and integral part in all MCRA's business decisions and strongly believes that all incidents and accidents are preventable.

MCRA aims to protect the safety, security and health of its people, to minimize the environmental impact associated with our business and to assure the integrity and safe operation of our assets by taking appropriate proactive approach that is based on monitoring and improving health and safety conditions.

## Our Services & Clients

- MCRA services include fuel receipt, storage, distribution and Into-plane fuelling through highly qualified team having international expertise and latest equipment and technology without compromising on Safety, Quality Control and Equipment standards.
- MCRA receives and stores approximately (1,200,000) one million two hundred thousand liters of Jet A-1 fuel per day from Saudi Aramco through our transport contractor. It also supplies fuel to around 100 aircrafts per day by following strict safety and quality control procedures.
- MCRA has more than 40 Customers (Airlines and Brokers) including:

- ✓ Saudi Arabian Airlines and some local companies such as Flynas, Flyadeal and SaudiGulf and several International airlines including Emirates, KLM, Turkish, Etihad etc.
- ✓ Private aviation companies.
- ✓ Cargo Airlines.
- ✓ Royal Saudi Land Forces that includes participation in some military exercises that took place recently in the Kingdom such as Gulf Shield 1 & Al-Jazera Shield 10.
